WHAT IS THE CAMP ABOUT?

This boot camp is to prepare students for the AP Precalculus Exam on **May 12, 2026**. The students must have finished or are about to finish a Precalculus course. In the camp, we will

- review key topics and summarize problem-solving skills;
- go over practice problems and practice problem-solving;
- answer questions.

WHO TEACHES?

Dr. Sheng Xu: Associate professor of math at Southern Methodist University

- Received Ph.D. from Cornell and did post-doc at Princeton and Cornell;
- Taught 12 different math courses, including calculus, at SMU;
- Received Betty McKnight Speairs Endowed Teaching Excellence Award
- Recommended by K12 students and parents in anonymous testimonials on <https://xumath.org/testimonial/>
- Published an undergraduate textbook *Introduction to Scientific Computing with Matlab and Python Tutorials*, Taylor Francis, 2022
